## PROJECTS

**Mood Brew** | [https://github.com/sosingh1226/Mood\\_Brew](https://github.com/sosingh1226/Mood_Brew) | [https://github.com/sosingh1226/Mood\\_Brew](https://github.com/sosingh1226/Mood_Brew)

- About: A full-stack app, in a team of 4, created a simulation that allows you to brew a special drink recipe based on a specific mood. Select your mood on the top and see below for your randomly generated drink and meal for the day! Cheers!
- My Role: Back-end programming in JavaScript, Web API's, intermingling of 3 different API's
- HTML, CSS, Foundation, JavaScript

**GhostWiki** | <https://github.com/sosingh1226/ghostwiki> | <https://ghostwiki.herokuapp.com/>

- About: This project was sparked from a desire to have a place for verified community contributions to be used as a reference.
- My Role: Front-end & Back-end programming in JavaScript incorporating additional API for Google Translate, Heroku Deployment
- HTML, CSS, JavaScript, Node.js, CRUD functionality using MySQL, Heroku

**House Ninja** | <https://archinect.com/soumyasingh/project/ux-design-portfolio> |

<https://projects.invisionapp.com/share/CUSKNQ2V3HE#/screens>

- About: An Android App using Sketch & Invision specifically for homeowners to find and bid on the best deals for their hectic house jobs.
- My Role: User Experience Design Project- includes User Research, Real User Interviews, Visual Design
- Sketch, Indesign, Adobe Photoshop, MS Office

## EXPERIENCE

### Mobile Application Developer- Intern Wayam Bharat

Dec 2020 – Jan 2021  
Boston, MA

Currently working on the design and development of a React Native web-application for early stage startup that focuses on assistance for low-income families and empowers students.

- Create self-contained, reusable, testable modules and components
- Delivering a complete front-end application
- Ensuring high performance on mobile and desktop
- Writing tested, idiomatic, and documented JavaScript, HTML, and CSS
- Coordinating the workflow cross functionally with graphic designer, the HTML coder
- Cooperating with the back-end developer in the process of building the RESTful API
- Communicating with external web services

#### Key Accomplishments:

- *Asked by management to take on much more than design and development. Building a project plan and presentation for the web application to help secure funding from investors.*

### Various Architectural Firms- Architect & Interior Designer

Sep 2017–Jan 2021  
Boston, MA

Jul 2010 - Aug 2017  
Pune, India

- Over 10 years of work experience as an interior designer helped me to fully express my creativity and design-thinking process with my team & clients. Job specialization includes building architecture, interior design projects (from presenting conceptual designs to generating construction drawings), proposing furniture & furnishings based on corresponding color, material & theme for all designs in commercial, residential, hospitality & educational institutes.

## EDUCATION

### Certificate: University of California, Berkeley, CA Full Stack Software Development
